Testimonial

HWI and particularly Cal Rogers look after all my business and personal accounting issues from monthly accounts, GST, Tax, planning, trusts and staff bonus calculations etc. I have been dealing with the HWI team for over 4 years now and always found their help and advice genuine and accurate. They have taken a real interest in my business affairs which has helped me to concentrate on other non financial bits allowing growth and development accordingly. HWI have always been quick to respond to my staff and myself with any questions or queries to ensure we have complied and are always one step ahead.

I have personally found the HWI team friendly and personable to deal with which has helped me with an understanding of the financials and what we can expect in terms of future financial planning.

Kind Regards,
